
logo chance

Posted by rokudamerlin - 2008/06/24 08:37

hello team from Moolets

(warning..my english is bad !!)

i have remove the logo from your company in the module .. i find this not ideal for a nice side =)

i will me installed more moo-modules and will more remove the logo .. i have make a big logo on the footer from your company on my side + link ..

i hope that is ok so

You are allowed to remove the logo completely if you like. You do not need to add one anywhere.

It is common for developers to plug there product and we understand that most folks will take the time to remove this

no problem
