
can hyperlinks be add to images

Posted by shahaan - 2008/10/01 01:47

Hi guys is there any possibility to add hyper links to different images in "Moolet 3D Image Carousel".

Thanks

Currently there are and with four choices.

- 1) community builder profile for user
- 2) myMPS
- 3) Uddie IM
- 4) Fireboard Profile

What is missing that you want to see here in this setting?
