wow-journals is now using the ONLINE, USER STATS and FB BORDERS ONLINE moolets. oh, and the DOTBEAR if you come while still in beta :P .

The FB code has been slightly adjusted to display the site ranking.

Platform Joomla! 1.0.13 stable & CB 1.1

Thanks for those moolets, they do bring life to the site.

Nice!

And great Avatar too, thanks for using our stuff...

I am on a modem at the moment so I will go back tomorrow and check out the Fireboard version, which I think has a bug in my end on the weekly stats.

Will get back to you

brian

Yes, that looks great!

We were unable to see exactly what you meant but adjusting for ranking.

But then we have not you had our coffee yet, will go back later and see if that becomes more apparent.

But good job with your site...

Oh very simple, I replaced your "mooleter" ranking by the designation of my own site.

this was done just by replacing the values in the english.php language file:

```
DEFINE ('_FB_RANK1','Murlock');
DEFINE ('_FB_RANK2','Scout');
DEFINE ('_FB_RANK3','Swordman');
DEFINE ('_FB_RANK4','Knight');
DEFINE ('_FB_RANK5','Champion');
DEFINE ('_FB_RANK6','Hero Of Azeroth');
DEFINE ('_FB_RANK7','Administrator');
DEFINE ('_FB_RANK8','Moderator');
DEFINE ('_FB_RANK9','Spammer');
DEFINE ('_FB_RANK10','Bard Of Azeroth');
```

Nice site! Nice also to see other players around here. I have a few alliance toons on stormreaver but havent played in a few months due to ALOT of webwork ive had to do. I was thinking of making a site for myself as well. I have and interesting idea for a joomla template using a variation of this sites nav bar or a base of yootheme's seasons template and modify all the graphics i have for a wow phpnuke theme. Links like you have, screenshot submissions guild listings by server mapped game progress using data from wowjitsu.com. Have any of you seen the item mods like allakhazam has? that would also be a great addition.. maybe some stuff from rpgoutfitters.. Currently I'm rebuilding our main website for the company i work for..

old site: www.jeffsjeepyard.com
