
Menu Link

Posted by beckett - 2007/12/22 16:20

How do I create a menu link to the Moolet Google Maps module? Thanks.

This would work like any other joomla module.

Create a new page in Joomla.
Create a menu to the page.
Assigned the module to that page.

If you are unfamiliar with creating content in joomla or builing Joomla website there are some create resources at:
www.joomla.org

hope that helps
